

FIREBOX T15

Available with optional integrated wireless module
Up to 90 Mbps UTM throughput, 3 x 1Gb ports

ENTERPRISE-GRADE SECURITY FOR SMALL AND HOME OFFICES

Designed to protect enterprise users where they connect – in the small office/home office – Firebox® T15 allows businesses to extend powerful network security to the remote workforce. With more features than any other small form-factor UTM firewall in its market, Firebox T15 is a cost-effective security powerhouse that delivers enterprise-grade security in a small package.

“ By standardizing on WatchGuard for network security, we were able to decrease the average installation time by more than 75 percent - now averaging anywhere from 15-20 [minutes] per site. We just plug the appliance in, it establishes a connection and pulls the configuration file. We are then up and running, and free to focus our time on testing credit card processing and access to approved websites.

~ Dustin McCreight, Product Manager, Network and Security Services, NCR Corporation

TOTAL NETWORK PROTECTION

Small businesses and remote locations have long been thought of as soft targets for attackers. WatchGuard Firebox T15 tabletop appliances bring enterprise-level network security to those small office/branch office and small retail environments that matches the reality of today's distributed work style. Our unique product architecture enables smaller businesses to leverage best-in-class security services – from URL filtering and intrusion prevention to application control and data loss prevention – minus the cost and complexity of managing multiple single-point solutions.

QUICK AND SIMPLE DEPLOYMENT

Cloud-based RapidDeploy technology, a configuration and deployment tool that comes standard with WatchGuard Firebox appliances, enables IT staff to create and store configuration data in the Cloud and have a new appliance directly shipped to its destination. Once the device arrives, it can connect to the Cloud for a secure download of its configuration settings, saving staff travel time and money. This technology is particularly advantageous for large distributed enterprises where managing a multitude of devices efficiently across multiple locations and geographies is critical.

EASY TO MANAGE AND UNDERSTAND

Firebox T Series appliances are not only easy to initially configure and deploy, they are also designed with an emphasis on centralized management, making ongoing policy and network management simple and straightforward. WatchGuard Dimension provides a suite of big data visibility and reporting tools that instantly identify and distill key network security threats, issues and trends so you can take immediate preventive or corrective action. Security is complex, running it doesn't have to be.

PROTECT WHERE YOU CONNECT

Distributed workstyles require organizations to rethink how they secure their employees while in home, shared-suite, and co-office environments. Firebox T15 brings full UTM protection to the remote worker without requiring back-hauling traffic through the corporate network.

FEATURES & BENEFITS

- Wireless versions of the T15 use 802.11b/g/n operating in the 2.4 GHz and 5 GHz bands for high performance and superior reliability.
- All logging and reporting functions are included with purchase, with over 100 dashboards and reports including PCI and HIPAA.
- 3 Gigabit Ethernet ports support high-speed LAN backbone infrastructures & gigabit WAN connections.
- Nothing could be easier than WatchGuard's drag-and-drop Branch Office VPN setup – three clicks and your remote office is connected.

Firebox T15/T15-W

TECHNICAL SPECIFICATIONS

THROUGHPUT

Firewall	400 Mbps
Firewall (IMIX)	120 Mbps
VPN (UDP 1518)	150 Mbps
VPN (IMIX)	46 Mbps
Antivirus	120 Mbps
IPS (fast/full scan)	160 Mbps / 80 Mbps
UTM (fast/ full scan)	90 Mbps / 52 Mbps

CAPACITY

Interfaces 10/100/1000	3
PoE ports	N/A
I/O interfaces	1 SRL/1 USB 2.0
Concurrent connections	100,000
Concurrent connections (proxy)	95,000
New connections per second	2,400
VLANs	10
WSM licenses (incl)	0
TDR Host Sensors included	5
Authenticated users limit	200

VPN TUNNELS

Branch Office VPN	5
Mobile VPN	5

SECURITY FEATURES

Firewall	Stateful packet inspection, deep packet inspection, proxy firewall
Application proxies	HTTP, HTTPS, FTP, DNS, TCP/UDP, POP3, POP3S, SMTP, IMAP, IMAPS, and Explicit Proxy
Threat protection	DoS attacks, fragmented & malformed packets, blended threats & more
VoIP	H.323, SIP, call setup and session security
Filtering options	Browser Safe Search, Google for Business

VPN & AUTHENTICATION

Cloud providers	AWS (Static/Dynamic), Azure (Static/Dynamic)
Encryption	AES 256-128 bit, 3DES, DES
IPSec	SHA-2, IKEv1/v2, IKE pre-shared key, 3rd party cert, Suite B
Single sign-on	Windows, Mac OS X, mobile operating systems, RADIUS
Authentication	RADIUS, LDAP, Windows Active Directory, VASCO, RSA SecurID, internal database, Duo, SMS Passcode

MANAGEMENT

Logging and notifications	WatchGuard, Syslog, SNMP v2/v3
User interfaces	Centralized console (WSM), Web UI, scriptable CLI
Reporting	WatchGuard Dimension includes over 100 pre-defined reports, executive summary and visibility tools

CERTIFICATIONS

Security	Pending: CC EAL4+, FIPS 140-2
Safety	NRTL/C, CB
Network	IPv6 Ready Gold (routing)
Hazardous substance control	WEEE, RoHS, REACH

NETWORKING

Routing	Static, SD-WAN Dynamic Path Selection
IP address assignment	Static, DHCP (server, client, relay), PPPoE, DynDNS
NAT	Static, dynamic, 1:1, IPSec traversal, policy-based
Wireless	Optional integrated 802.11b/g/n dual band 2.4 GHz and 5 GHz Wi-Fi module

PHYSICAL AND POWER SPECIFICATIONS

Product Dimensions	7.5" x 6.0" x 1.25" (19 x 15.2 x 3.2 cm)
Shipping Dimensions	12.5" x 7.25" x 2" (32 x 18.4 x 5 cm)
Shipping Weight	3.1 lbs (1.4 Kg)
AC Power	100-240 VAC Autosensing
Power Consumption	U.S. 15 Watts (51 BTU/hr) (max)

ENVIRONMENT	OPERATING	STORAGE
Temperature	32° F to 104° F 0° C to 40° C	-40° F to 158° F -40° C to 70° C
Relative Humidity	10% to 85% non-condensing	10% to 85% non-condensing
Altitude	0 to 9,843 ft at 95° F (3,000 m at 35° C)	0 to 15,000 ft at 95° F (4,570 m at 35° C)
MTBF	129,955 hours at 104° F (40° C)	

STRONG SECURITY AT EVERY LAYER

Uniquely architected to be the industry's smartest, fastest, and most effective network security products, WatchGuard solutions deliver in-depth defenses against advanced malware, ransomware, botnets, trojans, viruses, drive-by downloads, data loss, phishing and much more. Total and Basic Security Suite packages are available on all Firebox solutions.

Product	Support	TOTAL SECURITY	Basic Security
